

Combustion Technologies Inc October 2003

July 2003, Combustion Technologies Inc obtains FAA-PMA for part number ASC166313 for use in Pratt & Whitney Aircraft R2000 Twin Wasp Series Engines. These Pistons are available from either Chester Roberts Supply (903-429-6805, crs5r@aol.com) or Sun Air Parts (661-257-7708). At 2000 cubic inches the R2000 produced up to 1450 hp at 2800 RPM and was used on aircraft such as the Douglas C-54 Skymaster.

Designed in the late 1930's the Pratt & Whitney Aircraft R2800 Double Wasp is considered by many to be the most significant aircraft engine of World War II. Combustion Technologies Inc received FAA-PMA on the pistons (part numbers ASC272916 & ASC272903) for this engine in April of 2003. These pistons are distributed by Harry Hechter Co., Inc. (818-842-5169, radialengines@earthlink.net) & Skypower (818-983-0830).
